Citizenship

United States

Education

2007	PhD University of Michigan	Economics
2004	Masters University of Michigan	Economics
2000	Masters University of Chicago	Public Policy
1999	Bachelors University of Chicago	Economics

Experience

June 2019 - present **economist** Federal Trade Commission
Washington DC
➤ Work closely with attorneys and economists to model and quantify the effect of mergers and other potentially anti-competitive behavior.

September 2007 - May 2019 **economist** Antitrust Division, U.S. Department of Justice
Washington DC
➤ Work closely with attorneys to model and quantify the effect of mergers and other potentially anti-competitive behavior.
➤ Analyze the effects of various tariffs proposed by the Trump administration.
➤ Antitrust casework focuses on collusion and monopolization in financial markets, as well as merger analysis in the health insurance, advertising, airlines, and electricity industries.
➤ Authored code and documentation implementing numerous models to calibrate and simulate the effect of horizontal mergers. Versions of this code has been used in numerous antitrust investigations as well as in litigation.
➤ Authored code and documentation implementing numerous models to calibrate and simulate the effect of tariffs and quotas.
➤ Designed and coded web interfaces for merger and tariff simulation.
➤ Designed and maintained large databases (over 10 TB) for use in investigations and litigation.

Presentations

5/2019 DC IO Day
4/2019 International Industrial Organization Conference
6/2018, 7/2018 Federal Trade Commission
2018 International Competition Network
2018 International Industrial Organization Conference
8/2018, 2013 Federal Communication Commission
2012, 2017 U.S. Department of Justice

|----------------|---|
| 2018 | US DoJ/KFTC Knowledge Exchange Program <ul style="list-style-type: none"> ➤ Organized, co-authored and co-taught a 3 day training program for new economists at the Korean Free Trade Commission (KFTC). The purpose of this program was to train KFTC economists in how to analyze horizontal mergers. |
| 2017 | Algorithmic Document Review <ul style="list-style-type: none"> ➤ Trained a series of machine learning classifiers to predict if a document is pertinent to an investigation. Once these models have been fully tested, they will greatly reduce the time needed to review the massive amount of documents received by the Antitrust Division. |
| 2012 - present | R Training <ul style="list-style-type: none"> ➤ Authored and co-taught a series of short courses for Economists and Research Analysts on R. Covered topics included: data analysis, plotting, regression analysis, mapping, interfacing with databases, and antitrust analysis. |

Awards

2019	EAG Management Award For Positive Externality
2017	Team Award for work on Anthem/Cigna litigation
2016	EAG Management Award For Extraordinary Achievement
2015	Team Award for work on National Cinemedia/Screenvision litigation
2014	Team Award for work on American/US Airways litigation
2010	EAG Management Award For Pushing Frontiers
